

## Residential Swimming Pool Safety Act

### Residential Swimming Pool Safety Feature Option F.S.515.27

I am applying for permit to construct or install a swimming pool, spa or hot tub at the residential address indicated below. I acknowledge that one of the following safety features must be in place upon final inspection or the pool will fail the inspection causing my property and permit to be in violation.

Indicate which pool safety feature opted:

1. \_\_\_\_\_ Pool will be isolated from the home by a **pool barrier** that meets the barrier requirements of F.S. 515.29 and F.B.C. 454.2.17. If removable child barrier is used, one end shall not be removable without the aid of tools. (Manufacturer's specifications and barrier location sketch must be submitted).
2. \_\_\_\_\_ Pool will be equipped with an approved **safety pool cover** that meets all the performance standards of ASTM F1346-91. (Manufacturer's specifications must be submitted).
3. \_\_\_\_\_ All doors and windows providing direct access from the home to the pool will be equipped with an **exit alarm** complying with UL2017 that has minimum sound pressure rating of 85dB A at 10 feet. (Manufacturer's specifications must be submitted).
4. \_\_\_\_\_ All doors providing direct access from the home to the pool will be equipped with self-closing, self-latching device with release mechanism placed no lower than 54 inches above the floor. (Manufacturer's specification must be submitted).
5. \_\_\_\_\_ A combination of non-dwelling walls and fences (screen enclosure, child fence, masonry fence walls, chain link or wood fence, etc.) will protect the pool perimeter. The plans must specify the type and location of all non-dwelling walls.
6. A swimming pool alarm that, when placed in a pool, sound an alarm upon detection of an accidental or unauthorized entrance into the water. Such pool alarm must meet and be independently certified to ASTM Standard F2208.

**In addition to the above required safety feature option, outdoor swimming pools must have a barrier and gate hardware complying with F.B.C. 454.2.17. (New barrier permit application or current survey showing existing barrier location must be submitted).**
